HOW WE GO BACK TO SCHOOL

Guidance for Social Distancing on School Buses

SAFETY MEASURES
- Provide hand sanitizer when entering the bus and during the ride
- Install Plexiglass barrier around driver’s seat
- Disinfect all interior surfaces between routes
- Open windows and use fan to circulate fresh air
- Assign attendant to enforce social distancing during ride

SEATING
- With masks, one student per seat, alternating left and right positions
- Without masks, one student seated every other row, alternating sides
- Siblings may sit together to increase capacity
- Mark seats with tape to show students where to sit

CONTACT TRACING
- Keep passenger logs to enable contact tracing if someone tests positive for COVID-19
- Assign a single driver to the same bus and same routes to minimize groups of people mingling.

16 million public school students ride a school bus, which puts about 480,000 buses on the road every day.
