

10 Zoom Commandments for Elementary School Teachers

By Justin Minkel

Build in one-on-one time.

Meet with small groups.

Find informal ways to keep getting to know your students.

Give the kids time to hang out on their own.

Get students up and moving before they turn into zombies.

Go for quality, not quantity, of time online.

Give the kids a chance to laugh every day.

Teach to this moment.

Listen.

Show yourself the same grace you show your students.
